

Presentation: Inside the Mind of a Sex Offender

Domestic Violence/Sexual Assault Symposium

Gallup High School Auditorium

July 27, 2016

Sexual Abuser: Myths & Realities

Instructions: Please answer True (T) or False (F) to the following:

T or F

- 1. On a typical standardized psychological exam, most sexual abusers would appear to be "normal," like you and me. \_\_\_\_\_
- 2. Sometimes men have sexual urges that **cannot** be controlled. \_\_\_\_\_
- 3. The typical racist is a young, unemployed, Black, Latino or Native American male. \_\_\_\_\_
- 4. The number one reason given for sexual abuse is excessive alcohol consumption. \_\_\_\_\_
- 5. Females constitute **less than 10%** of the sexual abuser population. \_\_\_\_\_
- 6. Most adult male sexual abusers were once sexually abused themselves. \_\_\_\_\_
- 7. The recidivism rate for adult sexual abusers who regularly participate in a long term (2 years or more) Relapse Prevention group is **less than 15%** after four years. \_\_\_\_\_
- 8. The number one reason for sexual abusing is power and control needs. \_\_\_\_\_
- 9. There is no correlation between power, control and sexual abusing. \_\_\_\_\_
- 10. Sexual abusers are just "normal" people who simply got caught. \_\_\_\_\_
- 11. **(BONUS:)** Sexual abusers cannot be "cured." Instead, the problem must be managed. \_\_\_\_\_

Name of Participant: \_\_\_\_\_ Date: \_\_\_\_\_

Pre-test Score: \_\_\_\_\_ correct out of 11

Post-test Score: \_\_\_\_\_ correct out of 11
